Team London Bridge

An aerial 3D map of the London Bridge area. The River Thames flows through the center. The Shard is a prominent blue glass skyscraper on the left. Various streets are labeled, including King William Street, Tooley Street, Borough High Street, St Thomas Street, Westons Street, Melior Street, Kirby Grove, White's Grounds, and Tower Bridge Approach. Icons for a London Underground station, a DLR station, and a bus stop are visible. A red line outlines a specific area in the center of the map.

PUTTING PEOPLE FIRST

An aerial photograph of the London Bridge area, showing the River Thames, the bridge itself, and surrounding urban development. Overlaid on the image are several green and red ovals. The green ovals highlight specific areas of land, while the red ovals highlight other areas, possibly representing different land use zones or planning boundaries. The text 'Beauty & the Beast' is prominently displayed at the top, with 'Beauty' in a green oval and 'Beast' in a red oval, separated by '& the' in a white box.

London Bridge

Air quality monitoring

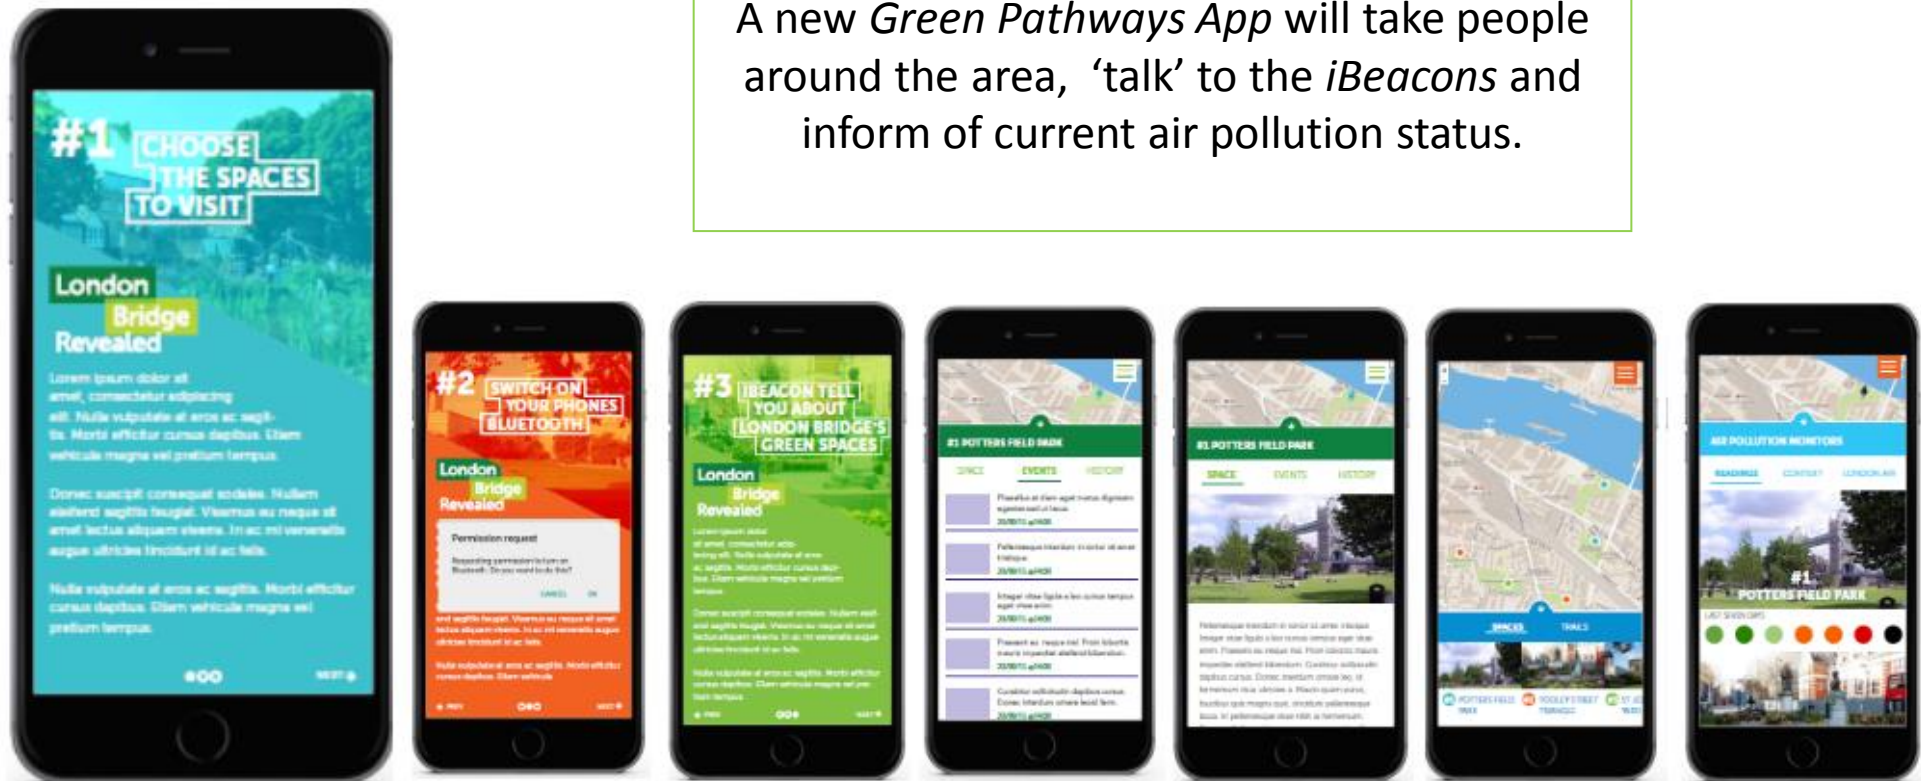

King's College Environment Department will broadcast air quality reports direct from a monitoring station within the Fresh Air Square.

London Bridge

Green Pathways App

A new *Green Pathways App* will take people around the area, 'talk' to the *iBeacons* and inform of current air pollution status.

The background of the slide is a photograph of a garden bed. It features rows of red wooden planters, some of which are filled with green plants and grasses. To the right, a green sign is visible, displaying various logos including 'London Bridge Revealed', 'Team London Bridge', 'Kings College London', 'Mayor of London', 'CJS', 'WMB', and 'Transport for London'.
